

The 4th Shin-ei Owners Club in Kansai (14th of January, 2020)

On the day 16 customers from 14 companies participated.

For the first half, General Manager Fujino held a lecture on "The contract on leased building restoration" as well as "building registration system". Going case by case while looking at the latest examples based on the guidelines from the Ministry of Land, infrastructure and tourism they delved deeply into these subjects. Thanks to this lecture our customers learned practical ways on how to deal with these problems.

For the second half, a social gathering was had were our employees and customers enjoyed refreshments and exchanged information, thus ending on a great note.
